## Professional Profile

Full-Stack Web Developer with a Doctorate in Engineering (UPM) and deep expertise in Technical SEO, Performance Optimization, and Content Strategy. I combine solid engineering skills (Supabase, React, Next.js, Astro) with proven SEO execution—achieving first-page rankings, 99/100 PageSpeed scores, and 40%+ organic traffic growth. Experienced in writing SEO-optimized long-form content, implementing Schema.org markup, and building multilingual platforms (ES/EN/DE). I've also worked with Three.js, GSAP, and Canvas API for immersive experiences. Dual residency in Caracas and Madrid, available for remote work.

## Professional Experience

### Full-Stack Developer & Product Architect

vendet.online - AI-Powered Marketplace

2024 - Present

- Complete architecture with Supabase (PostgreSQL), Row Level Security (RLS), and Edge Functions for serverless logic.
- Hybrid AI integration (OpenAI, Claude, OpenClaw) for SEO-optimized description generation and content moderation, reducing manual review time by 70%.
- Comprehensive on-page SEO across 5,000+ active listings with optimized meta tags, structured data, and internal linking.
- Virtual credit-based economy system with monetization (Boost, 24h/48h Featured listings).
- Sentry monitoring reducing MTTR by 60%. Response times <200ms.

Supabase · PostgreSQL · Edge Functions · OpenAI API · SEO at Scale

### SEO Strategist & Performance Engineer

ReformaT Venezuela - Construction & Remodeling

2024 - Present

- Complete local SEO strategy achieving first-page rankings for 20+ high-intent keywords across Caracas, Valencia, and other major cities.
- Authored 15+ long-form SEO blog articles (2,500+ words each) targeting transactional keywords, driving 40%+ organic traffic growth.
- Implemented LocalBusiness and Service schema markup, earning rich snippets and improving CTR from search results.
- Site built with Astro (SSG): 99/100 Desktop, 94+/100 Mobile PageSpeed. LCP reduced from 4.1s to 1.8s (56% improvement).
- Location-specific landing pages with city-targeted content and optimized meta tags for local search dominance.

Technical SEO · Local SEO · Astro · Schema.org · Content Strategy

### Creative Web Developer & Multilingual Specialist

Immersive Projects & Healthcare/Beauty Sector

2023 - Present

- Web experiences with Three.js, Spline, GSAP, and Canvas API, including interactive 3D globe with GLSL shaders and animated data flows.
- Multilingual SEO content (ES/EN/DE) for healthcare clinics with proper medical terminology and cultural localization.
- Premium interfaces with glassmorphism, microinteractions, custom cursors, and scroll-driven animations.
- FAQ sections and "People Also Ask" content to capture featured snippets and voice search queries.
- Google Business Profile optimization and local citations for multi-location healthcare providers.

Three.js · GSAP · i18n · Medical SEO · WebGL
